ENES GÜNTAV

Senior Backend Developer | .NET Developer | Full Stack Developer

Istanbul, Türkiye | +90 533 560 11 79 | guntav.enes@gmail.com | LinkedIn | GitHub

PROFESSIONAL SUMMARY

Software engineer with experience developing banking, treasury, and foreign transactions applications. Hands-on background in C#, .NET 6/8, ASP.NET Core, Angular, Oracle, and MSSQL, with a focus on microservices, REST API design, system integration, performance optimization, and observability. Scrum Master for a six-person team, contributing to technical decisions, team coordination, code quality, and mentoring.

PROFESSIONAL EXPERIENCE

IT Specialist | VakıfBank

July 2022 - Present

Istanbul • Treasury and Foreign Transactions Application Development

- Develop, integrate, and maintain high-volume banking and treasury applications across front-office, limit management, valuation, and back-office domains.
- Contribute to Treasury Frontoffice, Treasury Limit Management, Treasury Valuation Engine, and Treasury Backoffice applications; ongoing development continues on the Valuation Engine.
- Build backend and full-stack functionality with C#, .NET 6/8, ASP.NET Core, Angular, and TypeScript; support microservices and REST API integrations across treasury systems.
- Implement real-time data flows and application integrations using Kafka and Debezium.
- Optimize PL/SQL procedures, SQL queries, indexes, and tables across Oracle and MSSQL environments.
- Contribute to unit testing, code review, logging, and Azure DevOps CI/CD; use OpenShift, Redis, Amazon S3, Grafana, Prometheus, and Dynamic Trace for delivery and observability.
- Serve as Scrum Master for a six-person team, facilitating Agile ceremonies and supporting technical decisions, coordination, PBI tracking, and mentoring.

Software Specialist | NAVAPP Software and Consulting

December 2021 - July 2022

Ankara

- Developed customer-specific extensions and ERP functionality for Dynamics 365 Business Central using Microsoft AL.
- Built enterprise reports, provided customer support, delivered improvements, and contributed to Power Apps and .NET MAUI development.

SELECTED PROJECTS

Enterprise: Treasury Frontoffice Application • Treasury Limit Management System • Treasury Valuation Engine • Treasury Backoffice Application

Personal and academic: AI Food Analyzer (AI-based nutrition estimation) • Drinkly (water tracking) • Çeyizim (shopping-list tracking) • Tespit Drone (image-processing graduation project)

TECHNICAL SKILLS

Backend	C#, .NET 6/8, ASP.NET Core, Web API
Frontend	Angular, TypeScript
Databases	Oracle, MSSQL, PL/SQL, Redis
Messaging & Integration	Kafka, Debezium, Amazon S3
DevOps	Azure DevOps, Git, TFS, OpenShift, CI/CD
Monitoring & Observability	Prometheus, Grafana, Elastic, Dynamic Trace
Architecture & Engineering	Microservices, REST API Design, Performance Optimization, Unit Testing, Code Review
Additional Technologies	.NET MAUI, Power Apps, Dynamics 365 Business Central, Microsoft AL

EDUCATION

BSc in Computer Engineering | Erciyes University, Kayseri | 2015 - 2020
